### **Editorial**

We thought we might use a  
little space to explain some of  
Colony News' policies.

#### **Contributed Articles**

All articles submitted to  
Colony News for publication  
on our Reader Response Pages  
***Must*** be of ***original*** content.  
Colony News ***Does Not*** reprint  
other publication's articles.

While we welcome and  
appreciate our Reader's sub-  
mitted articles; we are also  
besieged by a flood of mail in-  
cluding copies of newsprint  
articles and flyers. The  
information contained in these  
submissions is interesting and  
worthy; but we ***do not*** print  
already published material.

Colony News, since it's

#### **Election Issue**

This Special Sept. 96 Election  
Issue includes - as you have  
noticed - articles on as many  
Political Parties as we could  
research. Unlike the establish-  
ment press; which covers only  
the Democrats, Republicans,  
and sometimes Perot's Reform  
Party, Colony News provides  
you reporting, platforms, and  
personalities involving most of  
the country's political parties.  
You may find some of these  
Parties controversial, maybe  
even distasteful-but, *we will  
publish all views*. We hope you,  
our readers, find this approach  
interesting.

Lastly, we would like to  
introduce you to some new fea-  
tures of Colony News.

As you will notice, Colony  
News has expanded to over 50  
pages. We do this in order to  
increase the information our  
readers enjoy.

A new feature beginning this  
month will be ***From The  
Roundtable***, which includes  
contributing articles by new  
Colony News staffer Mike  
Rowley of Erie, PA.

**Ed Note:** It has come to our attention Patriots, and Patriotic publications, have been accused of being too serious. In order to alleviate the fears of our detractors, and to lighten-up the political process; we decided to present perennial Candidate of the 70s', Pat Paulson.

It should be noted, Mr. Paulson, during the 1972 elections, actually received 2% of the total vote cast; about the same percentage as the Libertarian Party received in 1992.

We will be presenting 14 differing Parties on the following pages; some serious, some funny, some dangerous. Above all, enjoy the levity.

**The Green Party****Ralph Nader**

The Green Party USA in the United States is part of the worldwide movement that promotes ecological wisdom, social justice, grassroots democracy and non-violence. At the national level, many Greens join alliances with other progressive "third" parties.

The Greens Party USA accepts contributions to aid in organizing efforts. Separate funds are established for the following funds:

- People of Color fund
- Youth Fund
- Women's Leadership fund
- Lesbian/Bisexual/Gay/Queer fund

There is also a more "left" oriented Greens network out of Lyons Co.

According to Ralph Nader, as the Greens grow, they will become more involved in state and national legislation and running candidates at all levels.

The Green Party hopes to attract a high percentage of the environmental vote, especially in Ca. And CO.

## **Charles E. Collins for President**

### Campaign Platform for 1996

- I shall consider the US Government like I would any other business. I would immediately inventory our assets and our liabilities, and then chart a course to eliminate the national debt.
- The debt has consumed nearly all of our Income Tax each year. Therefore, if the debt is eradicated, there will be no need for Income Tax. The day I am inaugurated, I will present to Congress and Amendment for the repeal of the 16<sup>th</sup> Amendment. The sooner each state ratifies the Amendment, the sooner the income tax will be abolished. This will be the 28<sup>th</sup> Amendment, and will put an extra \$400 Billion Dollars into the taxpayers pockets each year.

This cash flow will generate 40 million new jobs in the private sector-not new government jobs, but real jobs intended to lure welfare families back to work. This repeal will save individuals and businesses \$800 Billion Dollars yearly now spent for bookkeeping, accounting and reporting. This makes a total of \$1.2 Trillion Dollars businesses and taxpayers keep for their own use. There will be no Income Tax, ever!

According to the Federal Reserve Board Figures, this \$1.2 Trillion Dollars added to the marketplace should add \$12 Trillion Dollars to the GNP the first year. Good paying jobs will

abound, and unemployment and welfare will be gone.

- A companion Amendment #29 will be presented to Congress Jan. 20, 1997. This will be a Federal tax on all retail sales, with a Constitutional cap of 5%.

There would be no federal bureaucracy allowed with the tax. I would ask the states to collect this tax, and pay the states and merchants a fee to collect the tax. The revenues would be forwarded to the US Treasury. Then Congress would only pass the amount of tax needed for each year, and could never levy over 5%.

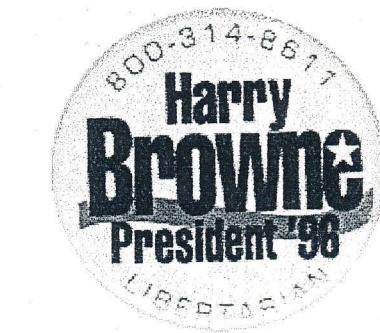

- I would ask Congress and the People to restore our Armed Forces to the number and proficiency attained during the Gulf War. We would insist that the National Guard secure their weapons at the Armory, instead of having to requisition ammunition from local military bases. I would support the militia as described in the Constitution, and veto any bills or laws diluting the 2<sup>nd</sup> Amendment.

• I would study carefully our Social Security System to ascertain our needs for all taxpayers in the system. I would create a special trust fund and funnel all FICA payments to this fund. I will secure these funds with IRA's and provide retirement funds for taxpayers and the residual fund would create, upon death, an estate for the family of the worker/taxpayer. This estate should be tax free

- I am opposed to foreign troops being stationed in the United States. I would send home the United nations forces and keep any equipment they have in this country. I would bring most of our Armed Forces home from overseas, and never put American troops under foreign commanders.

• I am opposed to federal mandates, upon cities, counties, states, or individuals that are not funded by the federal government. We should no longer allow any mandates that are not funded by Congress.

- I am opposed to the International Welfare Mandates demanded by the GATT Agreement and the W.T.O. This is nothing more than International Welfare for third world nations. President George Washington warned of entangling foreign alliances that could drag us down. I will work to refute and repeal NAFTA and GATT Agreements.
- I also know how to solve the Welfare problem of our nation. Our tremendous increase in private sector, high paying jobs, will lure welfare recipients back to good jobs. I know how to reduce the costs for welfare, and will work with states to do this. Welfare expenditures could be cut by 85% by removing administrative bureaucracy, without stopping checks to recipients until they could find a job. Our free economy with no income tax would let all entrepreneurs create jobs and draw all welfare recipients back to work, that are physically able.
- I will work to abolish the IRS and other punitive unnecessary agencies. I will rescind all of Clinton's Executive Orders, and work to negate all laws passed that have attacked the Bill of Rights. The first Ten Amendments will be restored verbatim. And the Federal Government will be put on a leash.
- I will appoint an Attorney General who will work within that office to be an advocate FOR the American taxpayer. I will make sure that we represent the People, to protect the Constitution and the Bill of Rights. No longer will it be the government against the people. The Attorney General will work to make sure our rights are protected, as guaranteed by the Constitution and the Bill of Rights.
- I will restore our Sovereignty and move to get us out of the UN. I will abolish F.E.M.A.

## Libertarian Party

### Harry Browne

#### The Libertarian

- Libertarians believe in the American heritage of liberty, enterprise, and personal responsibility. Libertarians recognize the responsibility we all share to preserve the precious heritage for our children and grandchildren.
- Libertarians believe that being free and independent is a great way to live. We want a system which encourages all people to choose what they want from life; that lets them live, love, work, play, and dream their own way.
- The Libertarian way is a caring, people-centered approach to politics. We believe each individual is unique. We want a system which

respects the individual and encourages us to discover the best within ourselves and develop our full potential.

- The Libertarian way is a logically consistent approach to politics based on the moral principle of self-ownership. Each individual has the right to control his or her own body, action, speech, and property. Government's only role is to help individuals defend themselves from force and fraud.
- The Libertarian Party is for all who don't want to push other people around and don't want to be pushed around themselves. Live and let live is the Libertarian way.

#### Why not stick with the establishment?

The politicians in Washington and our state capitals have led us away from the principles of individual liberty and personal responsibility which are the only sound foundation for a just, humane, and abundant society.

#### The Libertarian Option

- Substantially reduce the size and intrusiveness of government and cut all taxes
- Let peaceful, honest people offer their goods and services to willing consumers without a hassle from government.
- Let peaceful, honest people decide for themselves what to eat, drink, read, or smoke and how to dress, medicate themselves, or make love, without fear of criminal penalties.
- The US government should defend Americans and their property in America and let the US taxpayer off the hook for the defense bill of wealthy countries like Germany and Japan.

Government is too large, expensive, inefficient, arrogant, intrusive and downright dangerous. Democrats and Republicans created the status quo and do not intend to change it.

### U.S. Taxpayers Party

#### Howard Phillips

##### Goal

- To restore American Jurisprudence to its Biblical premises
- To limit the Federal Government to its Constitutional boundaries.

##### Our Plan

- To elect a President who will use his Constitutional veto authority - with the support of one third plus one of the members of the House or Senate - to terminate all Federal activities which transgresses the delegated enumerated functions prescribed in the Constitution.

##### Our Policy

- To balance the Federal budget immediately.
- To eliminate the national debt, strengthen the dollar, and fight inflation by abolishing the unconstitutional Federal Reserve System.
- To repeal the 16<sup>th</sup> Amendment, abolish the IRS, and eliminate the Federal income tax
- To appoint only judges who acknowledge the legal personhood of the unborn child
- To end Federal interference with imposition of the death penalty for capital crimes
- To fully safeguard the Bill of Rights, including rights of property, speech, religion, and the right to keep and bear arms.

- To terminate the funding for Planned Parenthood, AIDS education, the National Endowment for the Arts, the Legal Services Corporation, and other subsidized forms of ideological advocacy
- To close down the US department of Education and restore local and parental authority by terminating the Federal role in education
- To restore unconstitutional Federal holdings to the states and the people
- To restore accountability by abolishing congressional pensions, limiting judicial authority, ending bureaucratic privilege, overturning executive orders, and restoring all legitimate regulatory power to elected officials
- To withdraw from all New World Order treaties and organizations
- To provide for the common defense, including the immediate deployment of a strategic defense and the retention of strategically crucial US bases at the Isthmus of Panama.

The Conservative Caucus, which Mr. Phillips Chairs, is a non-partisan public advocacy group which has opposed the Panama Canal Treaty, the Carter-Brezhnev SALT II treaties, NAFTA, and the World Trade Organization.

The Conservative Caucus has lent it's support for a national version of California's Proposition 187, (to end mandated subsidies for illegal aliens) and continues to oppose socialized medicine, abortion, and special rights for homosexuals.

The U.S. Taxpayers Party approached Pat Buchanan with the offer of being their Party's standard bearer for the 1996 election. Mr. Buchanan turned down these requests.

## Reform Party

### Ross Perot - Richard Lamm

#### Principles of Reform

- High ethical standards for the White House and Congress
- Balance the budget
- Campaign Reform
- Term Limits
- Create a new tax system
- Medicare, Medicaid, and Social Security
- Lobbying restrictions
- Foreign lobbying
- Domestic lobbying

#### Creating a New Tax System

- The new system must be fair
- The new tax system must be paperless
- The new system must raise money to pay bills

- Require that any future tax increase under the new system be approved by the people in the next federal election, in order to impose discipline spending

#### Term Limits

- Limit Members of Congress to three terms in the House of Representatives
- Limit Senators to two terms in the Senate

#### Balance the Budget

- Develop a detailed blueprint to balance the budget
- Eliminate the practice of keeping some programs off-budget
- Pass the Balanced Budget Amendment
- Create an annual financial report in plain language so the American people will know whether or not we are following the plan to balance the budget

#### Medicare, Medicaid, Social Security

- Carefully put together plans to deal with Medicare, Medicaid and Social Security
- Explain these plans in detail to the American people
- Get a consensus
- Pilot test each of these programs before implementing them nationwide to make sure they produce the anticipated results at the anticipated costs
- Keep these programs dynamic, so they can be changed based on experienced-don't freeze them with restrictive legislation

#### Campaign Reform

- Reduce the cost of campaigns by shortening the election cycle to no more than four months
- Hold elections on Saturdays and Sundays-Not Tuesdays-So working people can get to the polls
- Replace the Electoral College process for electing the President with a direct vote from the citizens-so that every vote counts

- Prohibit announcements of exit polls until all voting has been completed in Hawaii
- Require Members of Congress to raise all campaign funds from the voters in their district
- Require members of the Senate to raise all campaign funds from the voters in their state

#### Lobbying Restrictions

- Elected officials, appointees and all employees of the Legislative and Executive Branches come to serve-Not 'cash in'
- Prohibit former elected and appointed officials from ever taking money from foreign governments or foreign interests. The current practice sends a terrible signal to current and future officeholders. It causes them to build relationships with foreign interests and foreign governments at the expense of the US taxpayer

*We The People*

#### We The People Party

#### Jerry Brown

##### Introduction

Our democratic system has been the object of a hostile takeover engineered by a confederacy of corruption, careerism's and campaign consulting. Politics has been debased and citizens have been excluded from genuinely participating in the economic and political life of their community.

Money has been the lubricant greasing the deal. Incredible sums-literally hundreds of

millions of dollars-from political action committees, lobbyists and wealthy patrons have flooded into the campaign war chests of Washington's entrenched political elite-Democrats and Republicans alike.

Seeking to secure careers of unlimited tenure, these politicians use this cash to fuel monstrous campaigns. Captained by political consultants, these camp[aligns are designed to crush any challenge to their power.

And, of course, the forces of greed are rewarded richly for the campaign contributions. Unjust tax breaks are only one form of acknowledgment. Agreeing to look the other way, these politicians opened the door to plunder of the savings and loans and a merger mania which gutted some of our most respected companies.

The quid pro quo could not be more straightforward. The legality of the barter cannot mask its inherent corruptness. Nor can any degree of dissembling obscure the truth that this bargain has been executed-almost without exception-to the detriment of the national interest and at the expense of the American people and their communities.

#### Electoral Fairness

- Establish a \$100 campaign contribution limit
- Ban political action committees
- Provide free television and mail under reasonable conditions for every qualified congressional and presidential candidate and party
- Provide matching funds for congressional candidates derived from a voluntary taxpayer check-off up to \$25

#### Participation

- Implement a universal voter registration system, with the burden of accomplishing this goal resting with government, not harassed citizens. Same day registration should be approved immediately

- Declare election day a holiday
- Make the District of Columbia a state with a duly elected member of Congress and two senators.
- Create a non-binding national referendum procedure, so that citizens have a means to express their views on important issues directly. Additionally, all states should enact binding initiative, referendum and recall provisions
- Remove the tax deduction for lobbying expenses. Removing this tax deduction would generate \$100 million in additional revenues

#### Humility

- Enact a rollback of the White House-Congressional Pay Raises
- Install a binding none-of-the-above option on the ballot
- Implement term limitations: 12 years and out

We The People is a national organization formed by activists involved in Jerry Brown's 1992 Presidential campaign. The philosophy of the organization and it's platform asserts that an increasingly pervasive corporate structure has destroyed democracy. Jobs, media and national elections are under the financial influence or control of a small minority. While the richest 1% directs political fundraising, elected representatives pretend they are independent of their well-healed handlers.

As Senator Phil Gramm said candidly: "I have the best friend a politician can have, Money!"

We begin with the premise Washington, Sacramento nor City Hall will help. The degeneracy and corruption of the present system ensure that. Relying only on creative power and a common undertaking, we intend to oppose and defeat that which degrades and divides us.

## National Patriot Party

### Dave Schultz

#### Platform

##### Political and Electoral Reform

- Enact legislation to eliminate campaign contributions from special interests such as political action committees
- Adopt a constitutional Amendment to eliminate the electoral college, providing instead for the direct election of the President by the voters
- Adopt a constitutional Amendment to impose a lifetime limit of no more than two terms in the United States Senate and three terms in the United States House of Representatives
- Enact legislation providing for reasonable and equitable ballot access standards for all federal candidates regardless of party affiliation
- Enact legislation requiring that all ballot qualified candidates for federal office be allowed to participate in publicly broadcasted debates

##### Government Process Reform

- Enact legislation to prohibit an incumbent from doing any mass mailing at public expense after March 31<sup>st</sup> of an election year and prohibit any franked mass mailing by incumbents to voters outside of the district in which the incumbent serves
- Enact legislation to prohibit federal elected officials or political appointees from serving as paid lobbyists after they leave office
- Enact legislation to eliminate pensions for congress and their staff

##### Individual Taxation

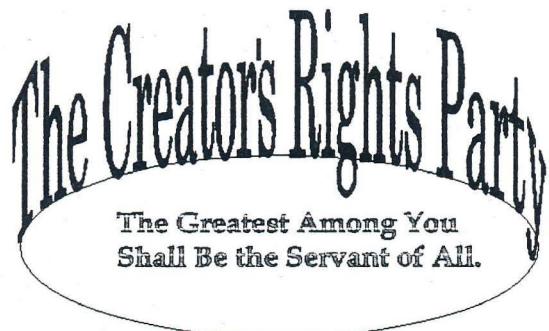

- We believe a single rate of taxation, coupled with a reasonable individual exemption
- We propose a single tax rate of 20% with a deduction of \$10,000 for each adult and \$5,000 for each dependent
- Interest and dividends taxed at the single rate subject to a \$5,000 per person exemption plus the standard deduction

##### Business Taxation

- Businesses, including corporations, partnerships and sole proprietorships will pay 20% rate on the surplus of revenues over expenses
- We support the elimination of the federal estate tax
- The tax base is gross revenue, less costs of goods, services, capital equipment, structures, land, wages paid to employees and payments to owners other than dividends to stockholders

##### Environmental & National Resource Policy

- We support the imposition of market rates for the use of public lands for grazing, timber harvesting, and mineral development

## Creator's Rights Party

### Neil Horsley

#### Party Goal

No one has unalienable rights unless the Creator is seen to be the source of rights. Moving people to understand rights and right has been God's plan for government since the beginning of time. And that is still God's plan for government today. Restoring that plan to its rightful place of authority in this nation is the goal of the Creator's Rights Party.

#### God's Plan For Government Defined

The words in the Declaration of Independence did in the beginning of this nation, do now, and will always, define God's plan for government as long as there is a United States of America.

Here God's plan as it was originally stated by the Founders of the USA:

"We hold these truths to be self-evident; that all Men are Created equal; that they are endowed by their Creator with certain unalienable Rights; that among these are Life, Liberty, and the Pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed; That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness."

#### Who belongs to the Creator's Rights Party?

- Believing that the words in the Declaration of Independence define God's plan for government makes you a member of the Creator's Rights Party

#### What will the Party Do?

- By attacking the lies, ignorance and bone-headed stupidity that have destroyed God's plan for the government, the Creator's Rights Party will restore that plan to its rightful place of authority over the people of this nation

#### Why join the Creator's Rights Party?

- The present political party structure in the USA has totally failed to defend God's plan for government. The present crop of politicians has not only thrown God's plan for government in the well, their policies actively abet the growing domestic terrorism. God's plan must be restored, for without it the grace necessary to sustain life in this nation will be withdrawn. Your assistance can ensure that God's plan will be restored

#### Evidence the Political Structure Violates God's Plan For Government

- Prayer to God outlawed in public schools
- Courts abandon idea of God in legal reasoning process
- Supreme Court overrule Will of God in legalized abortions
- Doctors ignore God and become agents of death
- Police and Military forces become instruments of Tyranny be enforcing Tyrannical laws
- Homosexuals introduce perverted image of God be claiming God created them to be homosexuals

The Time For Action Is At Hand

There is a non-violent solution to the problems growing in this nation. The name for the solution is secession.

The Creator's Rights Party believes it is about time the people of this nation realize that the process of debate and civil discourse will not be used as a subterfuge hiding the revolution presently destroying God's plan for government. People in this nation need to realize that before God's plan for government is totally destroyed in this nation, secession of the States will become a present reality. Won't you support us as we try to educate people to this fact so we won't be forced to secede?

Why We Must Do This Thing

The short answer is we have tried everything else. This is the next logical step in resistance to idolatry. If people continue doing things over again with the same results - then those people are stupid.

The easy things have been tried, what's left is the hard things. Some things are not only worth living for; they are worth dying for.

# COMMUNIST PARTY

## Communist Party

- To win significant gains for young people, in education and employment and in the fight against racism, the ultra-right policies of Newt Gingrich must be defeated in November
- Mobilizing young people to help defeat the Contract on America will be a challenge. In the 1992 elections, young voters turned out in record numbers. Based on Clinton's promise of "putting people first" the majority of these young voters helped Clinton win the election. In 1994 most of these voters stayed home, electing Republican to Congress.
- Most young people no longer identify themselves as Democrats or Republicans-they see themselves as politically independent
- We should run independent and Communist Party candidates only if these campaigns help and not take away from defeating ultra-right candidates
- There must be militant protest and action. Grassroots protest against candidates running for office, including Clinton. If we don't get youth on the streets in protest, we won't get them into the polls to vote
- Millions of Youth have been in protest against the right wing assault on immigrant rights, the dismantling of affirmative action and the new forms of racism
- Working to defeat the Republican thugs in Congress should be priority one for the Communist Party. We must bring up basic solutions like Tax the Rich, Free Education, Jobs for youth, etc., which can help defeat the Republicans in November, and take the offensive to win victories for working class people.

## **Pansexual Peace Party**

### Preamble

The Pansexual Peace Party (PPP) is a grass-roots political party based in the United States of America. The principal premise of the PPP is that peace is possible.

The basic underlying ethic is maximization of peace, freedom, creative expression, and the glorification of human sexuality.

This of course entails the minimization of violence, authority, indoctrination, and sexual repression. We are working to reduce the harm that human beings inflict on one another as well as the rest of the earth.

### Platform

#### Crime

- The USA is currently in a neck and neck race with Russia to maintain its status as the most heavily incarcerated nation in the world. The PPP aims to reverse that trend and make this nation truly The Land Of The Free. The alarming increase in the prison population in recent decades is a direct consequence of the War on Drugs.

Therefore, the PPP advocates the phased-in decriminalization and eventual legalization of all drugs. We want to change public opinion from the current punishment mentality back to a rehabilitation and prevention mentality. The

PPP will also champion laws and rulings that protect citizens from abuses of power

#### Communications

- We will encourage the development and use of public-key encryption technology for data security. Individual freedom in communication will mean little if powerful corporations are allowed to dominate the media. The PPP will do all it can do to reverse the current trend toward the concentration of power in the mass media

#### Energy

- We believe that the current petroleum economy is a misguided system of short-term gain with little concern for long-term consequences. The PPP will promote substantial increases in research and development funding for clean, decentralized energy technologies.

#### War and Peace

- We would like to see the Orwellian euphemism Department of Defense changed back to the Department of War. The rationalization of Defense has permitted the leaders of this country to con the public into accepting acts of US aggression.

The PPP would pare the War Department's budget down to a tenth of the current military budget, while retraining most of our military personnel

#### Education

- We propose a broadly-funded, equitable and universal quality public education. We would like primary school children taught basic literacy, math and science, physical education, a foreign language, human sexuality and human conflict resolution. Also restore the prestige of teaching, a grossly underpaid profession

## National Socialist White Peoples Party

### Principles

#### Natural Order

- We believe that the universe is governed by natural laws. In order for Man to be happy and successful, he must first learn what these laws are and then follow them. We believe that Man is part of the natural world and that he is in no way separate or distinct from it. Because of this we believe that society should be structured in accordance with the laws of nature, and not in opposition to them as is the case today

#### Racial Idealism

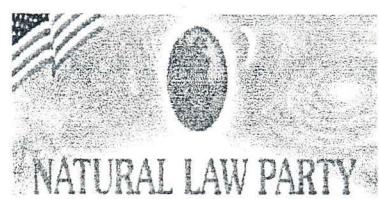

- Racial idealism is based on the love of one's own people. It means placing the interests and welfare of the racial community to which you belong ahead of your own personal interests and desires. As racial idealists we have no wish to harm, exploit, or persecute other racial groups. We are only interested in protecting our own people against extinction, a fate all too likely if nothing is done about present conditions in America

#### Upward Development of White Race

- We want to do more than just defend our race; we want to see it improve. This can be done by encouraging a high birth rate among those sections of the White population which are the healthiest, strongest, and most intelligent. At the same time, our science should work to eliminate hereditary weaknesses and defects among our people. Our goal is that each new generation of White children will be better than the one before it

#### 10 Basic Principles of N.S.W.P.P.

- Be Honest
- Believe in God and yourself
- Be faithful to your Race
- Fight for your Race
- You are a superior individual
- Love your brothers and sisters
- Improve your brothers and sisters
- Reject the decadence
- The best must rule
- Nothing is impossible

#### Natural Law Party

### Principles

- Establish higher national education standards and the practical means to achieve them
- Lengthen the school year and increase the number of subjects in higher grades
- Establish ties with teachers organizations, schools and community interests
- Add computer support to the National Literacy Act of 1991
- Increase the nutritional value of school lunches
- Create national apprenticeship programs by bringing together business, labor and faculty
- The best government is Onature's government - natural law, which governs the universe
- To fully address social problems, governments must reduce social stress by bringing society as a whole into a collective consciousness, which is the sum of the conscious
- Government itself should function with the efficiency and effectiveness of nature
- Government should uphold the rights of women and minorities
- America's decaying urban centers are a monument to decades of flawed public policies
- Shorten the campaign season, it should be reduced to four months
- Abolish the Electoral College
- Reconsider proportional representation
- Ensure ballot access fairness
- Tax fossil fuels to reflect their real cost to the nation
- Fully fund the Head Start program

Ed. Note: OK folks, I give up; this appears to be a party of no ideals, just semi-popular clichés. Get A Life!

### New Party

#### New Party Program

##### Domestic Investment

- This country needs new priorities - to support major investment in education, basic research, and physical and civic infrastructure. We want to declare the peace dividend, while providing ample retraining for current military workers. We also want to declare the environmental dividend and save billions of dollars through energy conservation and better management of resources.

##### Urban Reconstruction

- Our dying cities can and should be vibrant communities. Cities have natural advantages - population density, infrastructure, distinctive human capital - as anchors of a high-wage, low-waste economy. But present public policy neglects this potential while subsidizing sprawl and low-wage development. We would implement new policies to promote a healthier, more democratic economy that respects the needs of the people who depend on it. So, for example, we would combine the need for job creation and for environmental protection by generating jobs that also improve the environment.

##### Family Supporting Jobs

- The low road on industrial production must be closed off, to stop the downward trend in the quality of life for American workers. We would significantly increase the minimum wage, end subsidy abuse by removing tax and other

incentives to low-wage employees, and shorten the workweek to bring us closer to full employment, thus redistributing the benefits of increased productivity

#### Welfare Reform

- American commitments to equal opportunity should be upheld. We favor universal access to quality health care, education, and housing for all children. For adults, we believe most social benefits should be universal-like Social Security is now-but taxed progressively based on private income

#### Educate Forever

- We believe in a genuine learning society-characterized by continuous innovation and lifetime educational opportunity. We would redesign American elementary and secondary schooling-for equal funding, accountability in achievement, and universal opportunities for further learning. We support reform of student loan payments to be a proportion of future earnings, and for the non-college educated, we would provide, on the same terms, individualized training accounts available throughout their working lives

#### Progressive Taxes

- Tax policy should promote productivity, middle class/poor alliance, and cross-generational equity. We favor sharply progressive taxation of all universal social benefits - permitting a drop in marginal rates for the middle class; high rates of taxation on non-reinvested profits coupled with low rates of taxation on reinvested ones; a progressive VAT; inheritance taxes

Our program is based on our commitment to democracy, responsibility and fairness. We welcome your comments and suggestions.

#### Republican Party

##### Principles of the Republican Platform

- Because the American Dream fulfills the promise of liberty, we believe it should be attainable by all through more and secure jobs, home ownership, personal security, and education that meets the challenges of the century ahead
- Because a dynamic and growing economy is the best way to create more and better paying jobs, with greater security in the work place, we believe in lower taxes within a simpler tax system, in tandem with fair and open trade and a balanced federal budget
- Because wasteful government spending and over-regulation, fueled by higher taxes, are the greatest obstacles to job creation and economic growth, we believe in a Balanced Budget Amendment to the Constitution and a common sense approach to government rules and red tape

- Because we recognize our obligation to foster hope and opportunity for those unable to care for themselves, we believe in welfare reform that eliminates waste, fraud and abuse, requires work from those who are capable, limits time on public assistance; discourages illegitimacy; and reduces the burden on the taxpayers
- Because all Americans have the right to be safe in their homes, on their streets, and in their communities, we believe in tough law enforcement, especially against juvenile crime and the drug traffic, with stiff penalties, no loopholes, and judges who respect the rights of law-abiding citizens
- Because institutions like the family are the backbone of a healthy society, we believe government must support the rights of the family; and recognizing within our own ranks different approaches toward our common goal, we reaffirm respect for the sanctity of human life
- Because all children need and are entitled to the best education in the world, we believe in parental involvement and family choice in schooling, teacher authority and accountability, more control to local school boards, and emphasis upon the basics of learning in safe classrooms
- Because older Americans have built our past and direct us, in wisdom and experience, toward the future, we believe we must meet our nation's commitments to them by preserving and protecting Medicare and Social Security
- Because a good society rests on an ethical foundation, we believe families, communities, and religious institutions can best teach the American values of honesty, responsibility, hard work, compassion, and mutual respect
- Because our country's greatest strength is its people, not its government, we believe today's government is too large and intrusive and does too many things the people could do better for themselves

- Because we trust our fellow Americans, rather than centralized government, we believe the people, acting through their state and local elected officials, should have control over programs like education and welfare-thereby pushing power away from official Washington and returning it to the people in their communities and states
- Because we view the careful development of our country's natural resources as stewardship of creation, we believe property rights must be honored in our efforts to restore, protect, and enhance the environment for the generations to come
- Because we are all one America, we oppose discrimination. We believe in the equality of all people before the law and that individuals should be judged by their ability rather than their race, creed, or disability
- Because this is a difficult and dangerous world, we believe that peace can be assured only through strength, that a strong national defense is necessary to protect America at home and secure its interests abroad, and that we must restore leadership and character to the presidency as the best way to restore America's leadership and credibility throughout the world

#### We Declare

- The budget deficit and high taxes are two halves of the vise that is producing the Clinton middle class squeeze
- A balanced budget and lower taxes go hand in hand, not in separate directions
- Reducing the budget deficit by shrinking government produces a fiscal dividend in stronger growth and lower interest rates
- Ending that deficit will make possible a dramatic return of resources to the American people
- Tax relief is the only way to return the economy to the growth rates our country enjoyed from World War II to the coming of Bill Clinton

- We will not mortgage our children's future by incurring deficits

#### Creating Jobs

- Allow small businesses to deduct the costs of their health insurance
- Restore the fair home-office deduction so important to start-up businesses
- Assure that no one who inherits a small business or farm has to sell it to pay inheritance taxes
- Make the IRS stop its discrimination against independent contractors
- Enact both legal reform and product liability legislation to shield small businesses and protect jobs from the threat of unfair litigation
- Transfer from the public sector services that can be provided by the private sector more efficiently and cost effectively

#### Integrity In Government

- Revoke pension rights of public officials who have been convicted of crimes
- Strengthen citizen privacy laws and reform the FBI to guard against the politicization of law enforcement that we have seen by the Clinton White House
- Refuse to allow special interest groups to block innovative solutions for the poor or to block workplace or legal reforms that would help all working Americans
- Recruit for public service, at all levels, men and women of integrity and high ethical standards

#### America And The Territories

- We welcome greater participation in all aspects of the political process by Americans residing in Guam, the Virgin Islands, American Samoa, the Northern Marianas, and Puerto Rico. We affirm their right to seek the full extension of the Constitution, with all the rights and responsibilities it entails

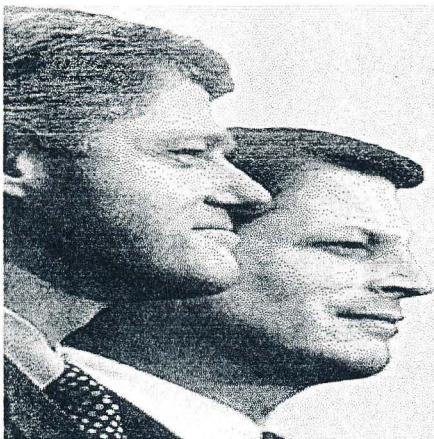

- We support the Native Samoan's efforts to preserve their culture and land-tenure system, which fosters self-reliance and strong extended family values
- We recognize that the people of Guam have voted for a closer relationship with the United States of America, and we affirm our support of their rights to mutually improve their political relationship through commonwealth
- We support the right of the United States citizens of Puerto Rico to be admitted to the Union as a fully sovereign state after they freely so determine

We call on all Americans to reject the forces of hatred and bigotry. We denounce all who practice or promote racism, anti-Semitism, ethnic prejudice and religious intolerance. We condemn attempts by the EEOC to regulate or ban religious symbols from the work place, and we assert the right of religious leaders to speak out on public issues. We believe religious institutions and schools should not be taxed.

We also endorse Proposition 209, the California Civil Rights Initiative, and we renew our historic Republican commitment to equal opportunity for women.

We oppose discrimination based on sex, race, age, creed, or natural origin and will vigorously enforce anti-discrimination statutes. We reject the distortion of those laws to cover sexual preference, and we endorse the Defense of Marriage Act to prevent states from being forced to recognize same-sex unions. Because we believe rights inhere in individuals, not in groups, we will attain our nation's goal of equal rights without quotas or other forms of preferential treatment. We oppose sexual harassment in the workplace and oppose indoctrination in the classroom.

## From The Roundtable

### **A New Colony News Monthly Feature**

**Colony News** is proud to announce the addition of a new monthly feature: **From The Roundtable**. We know this feature will soon become one of our Readers favorites.

#### **Who are the New American Roundtable?**

The New American Roundtable consists of three Patriots located in Erie, Pa. They are Mike Rowley, who has joined Colony News as a staff correspondent; John Hoffman, and Bernie Cote.

#### **About the New American Roundtable**

The New American Roundtable has joined the ranks of patriots to oppose the New World Order in their quest for global slavery. Born in Erie, PA. in 1995, it is already commanding interest from the *kept* press. That interest from the press was probably an attempt to alert the

likes of Morris Dees that we are here to stay and grow.

The New American Roundtable considers itself an educational organization. We refuse to promote any political candidates or parties. We have no agenda except to educate the public to the treason of the insider globalist who salivate at thought of being our masters. The truth is our only weapon. The spotlight of truth that exposes the international parasites is our only tactic.

Each month for the last year and a half the New American Roundtable has been able to assemble 50 to 60 people for a series of video presentations followed by a roundtable discussion. Our organization also distributes much literature. The founding members of the New American Roundtable all have links to the John Birch Society. But we owe a lot to the Militia of Montana, who have provided us with first rate videos that have done so much to bring us the level of success we've had.

Despite a recent hatchet job on us in the local press, which lost us our regular meeting place, we are able to continue in a even bigger way. The New American Roundtable is starting a concerted membership drive.

Also planned for August was a Roundtable Film Festival. A highly visible all day showing to the public of our best videos at no cost to the public. We are sure this will earn us the smear as being a hate group by those that seek to enslave us.

Anyone interested in joining the New American Roundtable, and benefiting from the intelligence we garner from around the world, please contact us at:

P.O. Box 10561  
Erie, PA. 16514

Note: The Erie Daily Times ran a front page feature on the New American Roundtable on June 3, 1996. Excerpts from the article include

the following positions explained by Rowley, Cote, and Hoffman:

The group believes the federal government carried out the bombing of the Murrah building in Oklahoma city, specifically the BATF. Cote said the ATF set up suspect Tim McVeigh as the apparent bomber, but that the ATF itself placed explosive charges inside the building, which did far more damage than the bomb set off by McVeigh.

*No ATF agents were killed in that, Cote said. They were all out for coffee, remember? There were 12 federal agents killed, but they were not ATF or FBI. A judge stayed home that day because he was told to.*

Although not members of any Militia, the group defends militias, as Cote explains: *There would be no need for militia movements around the country if there weren't a threat out there. This is grass-roots concern over the status of the nation.*

The group contends, rightly so, the US Constitution and Bill of Rights have been steadily eroded by legislation such as the anti-terrorism bill, Executive Orders and by federal regulation.

On gun control, the group advocates gun ownership for hunters and citizens. Cote elaborated: *If you don't acknowledge the fact that you may have to, like our founding fathers say; take your government back from those who have perverted it, then you aren't paying a lot of attention.* Obviously Mr. Cote has thoroughly read the Declaration of Independence. Hoffman concurred, saying: *Do you think we'd be sitting here today if your forefathers did not go to Lexington and Concord to get their weapons to fight the British?*

Cote acknowledged that the federal government is a formidable opponent for an armed but unorganized citizenry. Thus, he said the mission of the New American Roundtable is not confrontational but educational.

Cote did add: *The Roundtable believes a covert international group is systematically undermining America so the country can be incorporated into a global government called the New World Order.* We agree with the group's belief; except we term it The New World Colony.

### From The Roundtable

#### Death Squads In America

Well its finally happened. The Zionist controlled Globalists have shifted gears where killing is concerned. Now instead of murdering big batches of us in Waco, or small groups as in Ruby Ridge, they have shifted to taking us out one at a time. At least for a while anyway. If you happen to be a veteran with special training or a security clearance, you are a potential target for death.

Special hit squads, usually of European origin, have to date murdered the entire family of a gun dealer who was well known within patriot circles. William Mueller, his wife and 8 year old daughter Sarah, were killed and thrown into a river wrapped like yesterdays garbage. Those of us in the Patriot movement are now active targets.

This is a serious warning. Those with the following are at the highest risk for liquidation in the near future. Those who would oppose on us a New World Order fear you the most: Military veterans with electronic warfare training. Veterans with anti-submarine warfare experience. Gun dealers and ex-military involved in the Militia movement. Patriotic law enforcement at all levels, active and retired, but involved. Militia leaders and publishers of conservative publications are all possible targets of the death squads.

This all seems like a continuation of the PHOENIX PROGRAM that was carried out by the CIA in Southeast Asia in the 1960's. The plan the as it is now is to destroy the

infrastructure of the enemy. As we are the enemy now, we have to be on guard more than ever before. Look for an increase in agent-provocateurs trying to worm their way into patriot organizations. They seem to be the advance guard of hit teams.

These European and Asian death squads will have the tactical support of the FBI, CIA and the BATF. This is one issue that needs the attention of patriots everywhere. Everyone involved in the fight for America has to be aware of this latest active threat against our lives and our freedom.

The Globalist crowd has dared to cross over to a active war footing with Americans, Exposure will serve to be at least one antidote against the latest series of out-rages that the Globalists feel free to inflict on our children, ourselves and our nation.

#### Interesting Static

To see if your phone is bugged check this out. Employees of domestic intelligence agencies use this to see if they are being bugged by foreign and home-grown competitors.

Might be a good idea to do this frequently:

Dial 10732-1-770-988-9664

A female voice will state the 10 digit number you are calling from, plus the digit 8 at the end of the string.

The voice will repeat this number: 0-9;  
(8 times)

If the voice then states the digit 1 or 2; Your line is clear of taps.

If the voice states any other number besides 1 or 2; Your line is tapped.

The above was brought to you by the  
New American Roundtable

#### Editor's Note:

Well folks, we hope you found the New American Roundtable, and it's contributions; From The Roundtable interesting and informative

From The Roundtable is another effort by Colony News to bring you, our Readers, as many divergent viewpoints as possible.

We at Colony News wish to offer our thanks to Mike Rowley, who prepared and submitted the feature; and to John Hoffman, and Bernie Cote.

Dear Patrick;

I read with great concern about the giveaway of our national parks to the UN. I would like to peruse this further, and I would appreciate your sending me some official documentation that will make it clear how this action has come about or where it can be found.

What is the legal basis for this giveaway? When did it occur? Is it an act of congress, or was it approved by Congress? Where is it recorded? How can I obtain a copy of the original document?

This information deserves widespread publicity and I would like to work on this.

**Submitted by Earl Dickey, New Jersey Militia**

Michael and Staff;

To put together in fine detail a publication that conveys a message to its readers, must have a staff that is totally dedicated. The Colony Press ostensibly exhausts its resources in order to provide the reader with useful information.

In that, I commend all of you for the efforts which are put forth. And these efforts, rest assured are both noticed and appreciated.

As we well know, the hour is late, therefore we must keep the oil lamp burning to the wee

hours of the morning. With the mind set of; *duty, honor, country* I am sure that the true patriot will endure.

In the cause for freedom

**Also submitted by Earl Dickey of the New Jersey Militia****Wonder Why**

- Did you ever wonder why America is called the land of the free?
- As we celebrate our national holidays such as the Fourth of July, (Independence Day) which proclaimed our right to separate ourselves from a tyrant system, do we ever wonder why we allow abusive rules and regulations to eat out our substance in our day?
- Did you ever wonder why you have become the politician's pack horse for taxation?
- Did you ever wonder why Congress abrogated their responsibility of creating a debt free money. Article 1 Sec. 8-5 United States Constitution, and transferred their obligations to the privately owned Federal Reserve System to whom we are now indebted?
- As the United States military disarms through Department of State Document 7277, did you ever wonder why the United Nations is becoming the "World's unchallengeable military power?"
- During our Memorial Day celebration while honoring those young men who met death violently and prematurely, do we ever wonder why we continue to involve ourselves in foreign entanglements?
- As we wave our flags and watch our young men march off to another war, which many will never return, do we ever wonder why we have accepted the anti American policy of being the world police to enforce a United Nations agenda which is repugnant to both our freedom and sovereignty?

- Did you ever wonder why the fruits of your hard earned labor is stolen from you through the income tax to finance foreign countries including communist countries and then are taxed again to defend ourselves from the enemy?
- Did you ever wonder why our government has incorporated all ten planks of the Communist Manifesto into our system?
- Do we ever wonder why this modern day government (de-facto) claims we are free but rejects the formula to freedom, our Constitution, and the Bill of Rights?
- I wonder why we have allowed this government to multiply the laws beyond reason which subverts the intent of our Constitution and Bill of Rights? Every American is subject to arrest for violating any of the thousands of government laws.

**Socialism Always Destroys Middle Class**

We have read millions of words about the failure of almost everything in this country, and nearly every article expresses a feeling of perplexity as to why this is so. The answer can be summed up with only four words:

***Socialism Simply Doesn't Work***

It matters not at all whether you call it by its proper name, or if you call it democracy, it still works the same.

Any time a government controls everything, you have socialism. The very fact that our government officials try to hide this fact from the people is reason enough to know that socialism isn't good for country or its people.

Socialism has been tried in about every country at one time or another and has never stood the test of time.

It will thrive for a while to the benefit of the officials and the parasites who live off it, but when it destroys the middle class, who support it with their taxes, as it always does, it will collapse.

The Middle Class is comparable to the goose that lays the golden eggs. When the goose is dead there will be no more eggs for anyone.

**Submitted by Mike Kemp of the Gadsden, Alabama Minutemen**

**Officer Ambushed by Minuteman**

On Saturday morning, August 3, elements of the Gadsden Minute Men ambushed Gadsden, Alabama, police officer Kenneth Pollard at a gun store/pawn shop next door to some lawyer's offices in Gadsden.

Armed with a fully automatic, General Electric camcorder in 8mm VHS, and positioned strategically between Etowah

County Sheriff's office and the Etowah County court house, the *gunner* fired frame after frame, laying Officer Pollard low.

Officer Pollard was the subject of previous ambushes - he has a penchant for spending his On-Duty hours schmoozing around local gun stores, and was *caught on tape* and subjected to much derisive local publicity and an Internal Affairs Department (IAD) investigation.

Of course, since IAD in Gadsden is so good, Officer Pollard was evidently rehabilitated from the previous April 19's ambush.

However, at this juncture he is on the critical list, and the spillover even threatens the IAD its own self.

I believe if we would dump the Israelis, we would be rid of many of our problems in this country. I believe they are the major drain in foreign aid at the present time. There are also rumors that the Mossad was a major player in the Dhran bombing - that got rather quiet all of a sudden too didn't it?

There is so much terrorist activity, one piled upon another... one can scarcely keep abreast of it all. There is very little support for a position against Israel however... not even among conservatives. Most are Zionist and support the N.W.O. whether they know it or not.

##### Felonies committed by Presidents

- The President draws a salary to *faithfully execute* the office of the President, and *campaigning* for a second term is a violation of that clause. Accepting a salary for no services rendered while on the campaign trail is outright theft.

- The President is charged with serving ALL the people equally, not just those in his political party. Therefore, when he campaigns around the country for his political party and their interests he violates the public trust and his Oath of Office
- The President assures that federal grants or projects will be given to certain cities where he needs votes to assure a second term. This is political bribery and monetary theft at its worse and using the Office of the President to achieve personal gain
- Campaigning around the country requires massive advance work by the Secret Service which would not be required if the President worked at the nation's business instead of political party business.

Secret Service expenditures are charged to the public, the taxpayer, but records are not available for public scrutiny because of secrecy requirements.

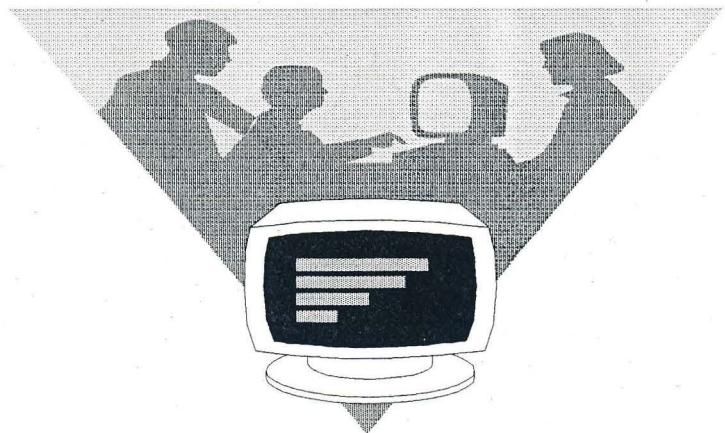

This is outright theft and embezzlement of many millions of dollars of public funds for political party use and winked at by those in law-enforcement

Listed above are some of the criminal acts (felonies) committed by the President of the United States and the two major political parties in any presidential election year.

All of these practices violate statutes (felonies) but those who commit them (politicians) are never charged with those statutes, as they are protected by those in law-enforcement as a special privileged class of criminals exempt from the penalties of law.

This establishes a double-standard of law making those charged with enforcing the law guilty of aiding and abetting and criminal conspiracy to violate the law.

This practice is codified as treason and seditious conspiracy.

## Wildfires, Drought, Heat, Dust Devastating West

By: Michael Devlin

Comprehensive look at the many facets destroying Western USA

### Is HAARP Responsible?

The Western United States is beginning to resemble the world's most spacious dessert. So far this year, and its early yet, 4 million 378 thousand acres of timber and grazing land have burnt; and the fires continue.

Not only is the Western US ablaze, but over 3 million forested acres of land in Western Canada have been stripped due to the fires. The burnt US acreage includes 586 thousand acres in Alaska. In an average year, according to the US Fish and Wildlife Service, 1 million 800 thousand acres burn.

The military, with 650 soldiers from Fort Carson, CO is being mobilized along with the National Guard. The fires are affecting nine western states; Colorado, Nevada, Utah, California, Montana, Oregon, Idaho, Washington and Arizona.

The continuing high temperatures and lack of rainfall causing tinderbox conditions is being directed by a stubborn High pressure ridge which has *parked* itself over the West for the past two years almost continuously, according the US Weather Bureau. This is the same ridge of High pressure Colony News has been pointing out to it's readers in the HAARP articles this past July and August.

National Weather Service spokesmen concede the high-altitude river of air referred to as the Jetstream has been abnormally locked into a western ridging position for the past two years now. The Weather Service offers no explanation for this abnormality, but Colony News has repeatedly pointed out the effects of the Governments HAARP program on the Ionosphere, and it's influences on the worlds weather patterns.

The following is a breakdown of the havoc being wrecked on various parts of the West, and their effects.

### Forest Fires

#### Current situation:

National Preparedness Level V has been issued by the National Interagency Fire Center. Several type II fire management teams have been mobilized in the Eastern Great Basin and Rocky Mountain Areas. Firefighters have made some progress on the many large fires across the Western United States. A Regional summary is as follows:

#### Southern California Large Fires

Hwy. 58, San Luis Obispo, Ca. This fire is 5 miles east of Santa Margaritas. Damage assessment confirmed 6 homes, 3 mobile

homes, 15 outdoor buildings and 3 vehicles destroyed. Total Burnt Acres: 69,500

Kaweah, Ca. State and Sequoia Kings National Park. This fire continues to threaten Giant Sequoia Groves and the Giant Forest Development. Burnt acres: 4,179

#### Drought

Cowboys Robert Kotzur & Prosper Kotare of Kotare's drought-stricken grain and cotton farm in McCook, Texas

Drought conditions continue to be severe in most parts of the West and lower Plains. Oklahoma, and the Arkansas Red River Basin has received only 73% of normal precipitation since October 1995. Texas has been drought plagued since September 1995.

Grazing land in New Mexico, Arizona, Oklahoma and Texas has withered. Colorado, recently has experienced dust storms. Crops have suffered irreparable loss and cattle ranchers have dumped their normally prime beef early due to lack of grazing land and high feed prices.

Coming food shortages are imminent. Whether or not they approach famine conditions is still disputable. At the very least, food prices *will rise* enormously in the coming months. This fact is even pointed out by the Meteorologist Shea S. Rial (see following article on weather).

Half the West appears to be burning; the other half seems to be on the way to becoming a dust-bowl.

Look at this picture and see for yourself

We at Colony News haven't been harping (how bout that choice of wording?) on the serious developing food/drought crises for nothing folks. The following is a weather explanation of abnormally dry conditions effecting Texas by Meteorologist Shea S. Rial:

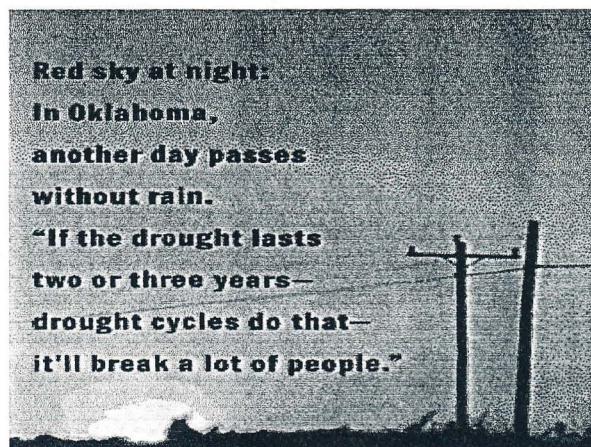

## The Relationship of the Drought of 1996 to Earlier Weather Patterns

The beginning of last year brought above normal rainfall to this region, and normal climatological trends were on schedule through the first half of 1995. These included occasional cold snaps through early spring, the usual rounds of thunderstorms in April and May, and prevalent heat and humidity by June. At the end of July, 1995, a weak tropical storm moved on to the Texas coast bringing significant rains to the southeast part of the state. Suddenly thereafter, it seemed as if someone had turned off the faucet in the sky.

As the calendar rolled to Sept., Central Texas readied for the rains that usually accompany the first few cold fronts of the fall. However, only some of these produced rain. Some storms lacked the upper level energy to produce the needed thunderstorms, while others lacked moisture. The result was prolonged dry weather, with wind that continued to parch the already suffering soils.

Matters became worse during October, as a very stable weather pattern governed the area. The sun beamed down on the region for three straight weeks (Oct. 3-24), baking the ground even more. Usually durable weeds began to die during this period. In the weeks that followed, cold Canadian air began blasting across the Great Plains at more frequent intervals. Because little rain preceded these cold snaps, there was no lingering humidity to modify the cold air that moved into the area. At this point, a feedback mechanism began which perpetuated the dry pattern.

With the lack of humidity, air temperatures dropped to levels lower than they might have in a normal year. By the beginning of December, cold fronts were coming more frequently, with virtually no rain. Because dry soil chills faster than moist soil, soil temperatures began to drop. In a normal year, relatively warm winter soil

will modify extremely cold air as the air passes over the soil. Since the soil was cold, though, the air remained colder than it would have been otherwise. The result was record low temperatures with each Arctic blast.

The problem also extended south into the Gulf of Mexico. When the successively colder air passed over Gulf waters, the water temperatures were cooled to lower than normal levels. Cool bodies of water evaporate less than warm bodies of water. So. With less water vapor available, the chances of rain continued to diminish.

It is also worth noting that February had a period of extremely high temperatures. The four day heat wave brought extremes in temperatures and wind that not only helped to produce wildfires during the next few weeks, but which also propagated the drought into the longer term.

During May 1996, the lack of energetics and the positioning of warm air aloft contributed to increasing rain deficits. The prolonged warm period experienced during the last two weeks of May also worsened the problem.

One of the mechanisms which could make a positive impact on breaking the drought would be a shift in the upper-level wind flow (Jetstream) to favor thunderstorm development. *In fact, rains are largely due to this very shift in the upper wind pattern.* The strong

concentrated band of winds aloft, known as the jet stream, shifted in such a way that it ridged up over the Rockies and dug down deep over the South.

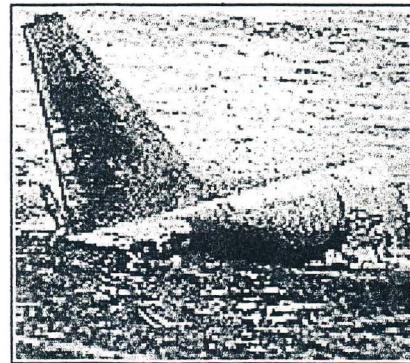

*We must ready for the higher grocery prices that are sure to appear because of the damage already done by Mother Nature.* We must be ready to use our water resources more efficiently, because hotter, drier weather to come is a real possibility.

We at Colony News are glad Mr. Rial explained all the sciences involved in the drought conditions prevalent throughout the West. Of particular interest was Mr. Rial's definition of dry weather caused by a constant ridging effect over the Rockies. This persistent rise in the jet stream over the Rockies begs the question to be answered:

**Is the government HAARP project located in Galonka, Alaska a red-herring?**

Is it possible the Galonka site is a government show-demonstration site designed to appease the curious, while the true active atmosphere altering project operates in secrecy over the Rocky Mountains? Indicative weather jet stream patterns over the past year or so indicate a location in the southern Idaho, southern Montana, northern Wyoming region to be plausible.

Someone asked me recently why the government would want to control the weather? I really don't have the answer to that question, except that whoever could control weather patterns, hence climatic conditions resulting in drought, crop loss etc. could conceivably control the nations, if not the worlds, food supply. Control of the population through distribution of food would result in the ultimate World Colony.

## **Presidential Cargo Plane Crash Deepens Mysterious White House**

By: Richard Struthers

**48 now dead while participating in White House Missions**

The Air Force C-130 Cargo plane that crashed into a mountaintop near Jackson Hole, WY. Is another in a series of mysterious Presidential related plane crashes the past two years. In that period of time, 48 people have lost their lives while serving President Clinton. The death rate, and Air Force plane crash rate, had been consistently declining the past 20 years; until 1996.

Last spring, Ron Brown and 29 others died while on a White House mission to Bosnia. In May, a new Presidential helicopter to be delivered to the White House crashed, killing the crew. In June, Vice President Al Gore's plane had to perform an emergency landing due to mechanical failure, and during the early summer, a plane carrying former President George Bush and Colin Powell had to make an unscheduled stop in New England due to mechanical problems.

President Clinton offered condolences to the family members of the dead crewmen and lone

secret service agent aboard. Once again, without attempting to be overly morbid; it appears to us at Colony News the past four years of Clinton's Presidency have been one funeral after another.

Clinton assumes His mourning look

One intriguing theory concerning the crash is that of mistaken intineraries. Its a well understood fact Presidents often utilize Air Force One as a decoy for security reasons, many times employing a less comfortable unobtrusive backup plane for actual transportation.

It is possible, given the state of the military's distaste for their Commander-In-Chief, the specially designed C-130 cargo plane was deliberately sabotaged. Also possible is the scenario of all those dead bodies surrounding Bill Clinton who obviously knew too much for their own good; and the theory that maybe those responsible for the trail of murder, ie: (MOSSAD - More Of Same Simon And Dees) have decided Bill himself now knows too much.

The other theory involves Clinton targeting the Secret Service agent on board the C-130. Admittedly the White House is in a furor over Gary Aldrich's book of revelations, collaborated by some White House assigned Secret Service agents. This theory presents the possibility the Clinton hit-squad enacted retribution upon the Secret Service. Whatever theory you subscribe to, or none at all; one must admit the trial of death grows.

Rep. William Clinger

Sen. Joseph Biden

Rep. Tom Lantos

The FBI personal file giveaway affair has only begun to have major American repercussions. The personal files which FBI Director Louis Freeh willingly and knowingly handed over to Craig Livingstone, representing the White House, now number over 2,000; and there is no certainty that number will not grow.

The impact this affair will have on some of the country's institutions may be devastating. Some of the facts sure to come to light during 1997 are:

- The surety that FBI Director Louis Freeh was involved in complicity in delivering the files to the White House operative
- The revelation that Hillary Clinton did indeed hire Livingstone; and that Hillary was the White House operations head who ordered the files
- The destruction of confidence in the FBI, which Freeh has permitted to become an institution of politics - not law, will result in his resignation, and dismissal of the FBI by the American public as a credible arm of law enforcement

- Cooperation with Kenneth Starr by Craig Livingstone will provide indictable evidence against Hillary Clinton on grounds of perjury, violation of the public security act, and compromising national security. The last indictment charge will be related to the revelation Hillary allowed the Mossad to photocopy the files; hence collecting valuable security information on prominent Americans; possibly for future use in a pro-Israel blackmail scheme designed to continue money, arms, and support for Israel

Livingstone, Marceca, and Kennedy appearing before the House Government Reform and Oversight Committee, chaired by William Clinger (R-PA)

The country will soon yearn for the simpler days of Inspector Lew Erskine, of *FBI rerun* fame by the end of 1997. The former bouncer, black-bag Clinton political operative Craig Livingstone is sure to crack and spill the beans before Whitewater Special Prosecutor Kenneth Starr. Sources within Starr's investigative team have confidentially told Colony News Starr intends to intimidate Livingstone with multiple indictments involving security and privacy issues which could lead to serious prison time. The source expects Livingstone to comply rapidly to avoid the consequences.

When this reporter mentioned to the investigative member the penchant for Clinton ally's to turn up dead, and wouldn't this be a speech deterrent to Livingstone, the Starr

investigative team member laughed, rolled his eyes and turned away.

The most interesting aspect of the File Flap is had it not been for the demands of the House Government Reform and Oversight Committee for the White House to surrender documents involving the Billy Dale Travel Office firing, these illegally obtained and viewed files would never have been public knowledge. Only after two contempt of Congress votes did the White House agree to provide the documents leading to the flap.

What's at stake here is that the Clinton White House *knew* the requested documents contained reference to the FBI files - and they tried to hide this information as long as they could.

The links from the FBI files and Hillary Clinton are clear. Everytime *lost* documents are requested by Congress, and finally delivered; they *have Hillary's fingerprints all over them!*

Livingstone's White House boss, Anthony Marceca, remained silent while appearing before Clinger's House Committee, invoking the Fifth Amendment. He too, could not recall who had hired Livingstone.

Maybe we can reinvigorate Mr. Marceca's memory a bit. Mr. Marceca, *Hillary hired you, Hillary hired Livingstone, Hillary ordered Freeh to collect and deliver background files on Americans, Hillary provided these files to the Mossad, and then Hillary covered the whole Constitution corrupting act up!* Does that refresh your memory, Mr. Marceca?

To take that thought a bit further, I believe *Hillary Rotting Clinton, First Lesbian of the nation, is the most Constitution corrupting person ever to set foot in the White House!* Her obvious disdain for the sanctity of the Founding Father's most cherished and holy document,

the Constitution of the United States of America is treasonous.

The fact that Patsy Thomasson, Hillary's lesbian director of personnel, personally asked Secret Service Agent Dennis Sculimbrene to provide information contained in FBI files to her. i.e.: Hillary, would convict any lay person with due haste.

The statement issued by Director Freeh ordering sweeping new measures to protect sensitive background investigation files in the future was a snide insult to the intelligence of the American public.

First Freeh condemns the White House for *egregious violations of privacy without justification*, then in concert with Clinton, both offer apologies and dismiss the entire incident.

Fortunately, Congress was not buying this act, as even Democratic Senators Biden (Del) and Simon (IL) raised their voices in concern regarding privacy issues. Naturally, defense of Clinton and Freeh came from Democratic Rep. Tom Lantos (D-CA), the ultra liberal Israeli delegate to Congress.

Why shouldn't he defend the FBI and the White House's actions? After all, the ultimate receiver of the files was Lantos' real boss; not the American voters who elected him, but the dirty, spying, foreign-aid receiving, murdering nation state of Israel.

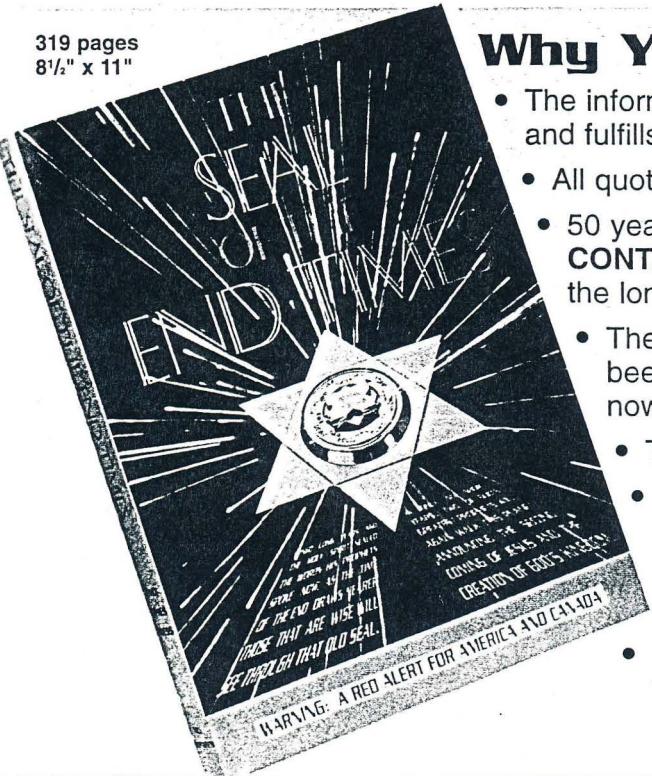

Lantos should be tried for treason for using his position as a US Congressman to spy on the United States for the nation of Israel.

The official FBI, White House report on the matter was drawn up and approved by none other than FBI General Counsel Howard Shapiro, and Deputy Attorney General Jamie Gorelick; both of whom are also agents of the Mossad, spying on the US for Israel. As we've mentioned before, these files were obtained and used for the purpose of blackmail, ensuring the re-election of Israeli spy William Jefferson Dees Clinton. If comparisons are an indication President Nixon must be in Heaven, compared to this gang of thugs.

## Many Americans To Lose Personal Use Of Vehicles

**45% to 60% of all Cars May be Forced off Road by EPA**

By: Patrick Dublin

The silently sleeping American Sheeple are about to discover the wonderful world of Mass Transit, Whether they care to or not!

Just think of the possibilities; the majority of Americans will be able to pack themselves, Japanese style, into mass transit cubicles every day instead of the annoying leisurely drive through the countryside.

The following are reports on this alarming vehicle confiscation policy pertaining to New Jersey and California; but look out, your state is listed next!

### New Jersey

On June 2, 1995, Governor Christie Whitman (yeah, that darling of the Republican convention) signed legislation # SCS-1700. This regulation is now law, and will be fully implemented against all NJ car and truck owners in 1997.

Briefly, SCS-1700 states the following:

With few exceptions, ALL motor vehicles will be required to report to new ADVANCED TESTING FACILITIES for *Enhanced Emission Inspections*. If your car or truck cannot pass this test - the vehicle *Must* be taken off the road. Only 3% of those vehicles failing the test and having already spent a minimum of \$450

for repairs will be granted a waiver allowing them to remain on the road for two more years. You have no appeal and no other option.

Motor vehicle inspections will cost at least \$24. The I/M Enhancer Emissions Test, in which an operator drives your car through a simulated dynamometer road test, is *designed to fail between 45% and 60% of all cars* over 4 years old, this according to the EPA.

Eight out of ten vehicles over 10 years old are not expected to pass. You have no protection against damage or the destruction of your vehicle by such stress testing methods. 97% of those vehicles failing the new Enhanced Emissions Test will have their registration renewal automatically denied by the state; meaning it will be virtually impossible to sell such vehicles to any other individual or dealer.

The state, however, will ultimately receive *pollution credits* they can sell to industrial polluters for every vehicle taken off the road. Owners of failed vehicles must surrender their license plates within 45 days... and since NJ law already prohibits you from having an unregistered vehicle on your own property, local law enforcement can then seize it at will.

Assisting in this effort, NJ Department of Environmental Protection (Gestapo) has revised the state's definition of *quasi-public* to include *All Residential Driveways And Parking Lots* - Yes, you've also lost your private property rights!

Repairs can only be attempted by a *State Certified Repair Facility*... to which you have little say about work quality or costs. You can no longer perform emission related repairs yourself unless you posses a *nationally recognized certification for emission-related diagnosis and repairs*.

Roadblocks will be established throughout the state (NJ is world-famous for state police roadblocks) to test a percentage of all vehicles. Automated sensing devices are already installed along NJ highways (for the purpose of sniffing out the rats that run this state, I

suppose) to monitor your vehicle's emissions as you drive by. Violators of the new emission standards will have their license plates *Photographed*; thus enabling DMV to issue notices requiring their return for reinspection.

Severe penalties, fines and jail time have been attached to all violations of this legislation. In fact, the state will begin kicking back a 50% commission to local police for their help in taking away your car!

Remember, SCS-1700 is aimed at *Getting Your Car Off The Road!* It is aimed at producing one car families. Collector, hot rod, and hobbyist cars are history. A spare car for local trips, a teenage driver, student, or the commuter park and ride is history.

That classic Mustang convertible has been redefined a *gross polluter* and is now targeted by the state for the crusher. Ironically, state officials have recommended you start saving your money now to but a new car.

Clearly, the issue here is ever increasing government control over not only your mobility, your life and your freedom; but even your ability to work and earn a living. It has almost nothing to do with clean air.

As will be mentioned later in this article, EPA Regional administrator William Yellowtail, *Cleaning up cars and roads is only half the solution. The other half, and in fact difficult half, involves getting people out of their cars.*

### California

Thanks to Charlie Peters and Stella Pyrtek-Blond of Clean Air Performance Professionals (CAPP) for outstanding diligence. They've been leading the initiative for the great shake-up occurring around the country to constrain the manipulations of the out-of-control, Federal EPA agency, and some Orwellian provisions of it's Clean Air Act.

Stella attended a meeting in Colorado a couple years ago and has a tape recording of one of the EPA bureaucratic stooges, William

Yellowtail (told you, this guy pops up everywhere-more later) claiming: *Our job is to get cars off the road.*

Readers and Subscribers in Montana, take note. William Yellowtail is currently a US Congressional candidate in your state. (where's that militia of Montana when you need them?)

Governor Pete Wilson is about to sign long-term contracts with Global Corporation. The contract mandates public participation in rigged emission testing protocols to create chaos in order to bring about their desired change.

California, already the nation's leader in Wacky Laws, is sure to proceed full speed ahead with the states latest version of *The people be damned!* Can't wait to see 3 million people at once jam the cable-cars in San Francisco. Then again, aware of the makeup of the population of the City by the Bay, jammed cable-cars would probably result in the world's largest commute-time homosexual orgy. By the way, when in San Francisco, do not trust the Police Chief, and never, never, submit to a search by the men (?) in blue. We understand strip searches are the highlight of an officers day.

Under California's current *car crusher law*, the intention is to crush 50,000 cars per day. By crushing the cars, all components and parts are destroyed so those who own older model cars will not be able to find parts for repairs.

In Pennsylvania, the state legislators, after entering into the contracts with Envirotest, realized their mistake, canceled the contracts and are now being sued.

We at Colony News believe the EPA should be disbanded and reformed. We are for a clean environment, but not at the expense of EPA Storm Troopers trampling all over citizens rights. We feel the same way about our car as our gun: *Come on and try to take it away.* This 60's generation, over fifty angry White male doesn't have many rights left-*proceed at your own risk!*

## UNESCO Bio-Diversity Sites Grabbing U.S. Land

By: Patrick Dublin

### Clinton handing over American Parks to the UN

**Editors Note:** Colony News received hundreds of letters requesting more information concerning UN-Bio Reserve Sites as reported in the Aug. 96 Issue.

As reported in the August Issue of Colony News, President Clinton has ceded full title to Yellowstone National Park to the UN. All 18 million acres of it is now a Global Biodiversity Assessment. Yosemite Park and Rocky Mountain National Park are also now on the nomination list for this dubious distinction.

These sites, and others, are detailed in the Federal Register (47 FR 19648), as amended by 48 FR 38101 and 55 FR 33781.

The Biosphere Reserve program is a UNESCO idea. Theoretically, it is voluntary. That is, UNESCO has no power to force countries to cede land. The criteria for such designated regions are purposely vague.

#### How are Biosphere Reserves selected?

➤ Biosphere Reserves cover the great variety of natural areas of the biosphere, from mountains to the plains; from coastal

regions and islands to vast inland forests; from the deserts of the tropics to the tundra of the polar regions.

- To qualify for designation an area should normally:
- Be representative of a major biogeographic region, including a gradation of human intervention in these systems;
- Contain landscapes, ecosystems or animal and plant species;
- Provide an opportunity to explore and demonstrate approaches to *sustainable development* within the larger region where they are located;
- Be of appropriate size to serve the three functions of Biosphere Reserves mentioned above;
- Have an appropriate zoning system, with a legally constituted core area or areas, devoted to long-term protection; a clearly identified buffer zone or zones and an outer transition area.

So far, the following areas are Bio-Reserves  
 Aleutian Islands - Beaver Creek - Big Bend  
 Big Thicket - CA. Coast Ranges - Cascade  
 Head - Central CA. Coast - Central Gulf  
 Coastal Plain - Central Plains - Champlain,  
 Adirondack - Channel Islands - Coram - Denali  
 - Desert - Everglades - Fraser - Glacier -  
 Glacier Bay, Admiralty Islands - Guanica - H.J.  
 Andrews - Hawaiian Islands - Hubbard Brook -  
 Isle Royale - Jornada - Konza Praire - Land  
 Between the Lakes - Luquillo - Mammoth Cave  
 Area - Mojave and Colorado Deserts - New  
 Jersey Pinelands - Niwot Ridge - Noatak -  
 Olympic - Organ Pipe Cactus - Rocky  
 Mountains - San Dimas - San Joaquin -  
 Sequoia, Kings Canyon - South Atlantic  
 Coastal Plain - Southern Appalachian -  
 Stanislaus, Tuolumne - Three Sisters -  
 University of Michigan - Virgin Islands -  
 Virginia Coast - Yellowstone

Quietly, Clinton is seeking to redefine America's environmental and land use policies in conformity with the United Nations Agenda 21 blueprint for a global environmental dictatorship. The Eco-Clinton plan would result in the conversion of at least half the land areas of the continental US into a vast *ecopark* devoid of industry and private property.

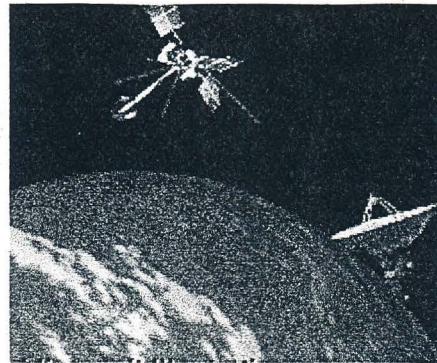

Fortunately, there are watchdogs researching and speaking out on the UNESCO-Clinton land giveaway.

At a gathering of interested scholars, activists, and religious leaders in Kansas City held on March 21<sup>st</sup>-23<sup>rd</sup>; Professor Jacqueline Kasun presented a detailed analysis of key UN documents, including the Global Population Plan created at the 1994 International Conference on Population and Development; the Plan of Action created at the 1995 UN women's conference in Beijing; and the UN Convention on the Rights of the Child. Professor Kasun described the UN's vision as that of a *world environmental zoo park* in which human society would be radically realigned.

The UN's environmental vision is one of a human society achieving *sustainable development*. This concept has become a much more immediate danger with the recent publication of Sustainable America: A New Consensus, the report of the President's Council on Sustainable Development (PCSD)

The report presents a detailed program for infusing UN mandated reforms into every aspect of American life, including education, job training, housing, transportation, and health care. It urges an increase in foreign aid to promote UN environmental policies abroad, and the adoption of UN generated population control policies here at home.

Contact Rep. Young (R-Alaska) or Rep. Scarborough (R-FLA), who have proposed bills to retain America's sovereignty.

## Views From the Satellite Colonies

**C-Span** has forsaken all pretense of freedom of the airwaves with their new phone call-in policy of assigning one number for Democrat and another for Republican callers. Obviously this permits C-Span to portray a consensus for one party or the other merely by responding to that line's calls in a disproportionate manner. We remind you once again; C-Span is owned and financed 100% by Cable-TV companies, which are 80% owned by major Publishing companies such as NY Times, Times Warner, Washington Post, Times Mirror, Gannet etc.

**President Clinton's** announced assault on tobacco products is an immoral slap in the face to all parents. While Clinton has persisted in a four year campaign against teen-age cigarette smoking; teen drug usage has increased to crises proportions. Marijuana, Cocaine, LSD, and even heroin use has exploded, especially the past two years. While Clinton's tobacco policy may make it difficult for teens to obtain a cigarette; any teenager will tell you they can go *anywhere* and obtain drugs. Clinton, and his staff have portrayed the image of hip, drug-using permissive adults to the teenagers, and teenagers have responded by joining in.

**The Primary focus** of the Gadsden Minute Men Constitutional Militia of Alabama is to require our government to adhere to the Constitution of the USA. This statement was issued by Mike Kemp of the Gadsden Minute Men to the London Sunday Times. He also said *Our primary uniforms are street clothes, our weapons are video and audio recorders, employed by stealth to publicize anti-constitutional activities.*

**The Michigan Wolverines** issued a Red Alert during August based on the following: FBI members we normally talk to are no longer present, and would not discuss any activity going on; County level law enforcement had not been briefed on any Federal activity; activity is reported busy at Grayling with both National Guard and law enforcement; Executive Order # 13000-010 has been delivered to FEMA and the Dept. of Defense with regard to document HCON 206; should you realize total power outage We encourage you to leave your residence at once.

**Militia Bill** introduced into Congress by Ms. Jackson Lee (D-TX) states: there exist a threat to the security of the US government posed by armed militias; whereas various spokespersons for militia organizations have repeatedly denounced the legitimacy of the US government; whereas extremist anti-government militias in the US may number as many as 88, within 40 states; whereas some militias constitute a grave danger to American citizens and threaten the foundation of freedom and democracy in America.

**Alternative Press** is the only place to read the actual truth with regards to the state of the nation and world. What perplexes us though is the Alternative Press's habit of *quoting* establishment media's words to lend credibility to their own publishing's. To all Alternative Press publications: *Get Over It!* You don't need

verification by establishment Press to prove your worth. Ignore them! Colony News never neither quotes, nor recognizes the Establishment Media. We don't need confirmation from the devil itself to verify our purpose and concede the truth.

**Weapons Laws** do deter crime. A nationwide study found that violent crime fell after states made it legal to carry concealed handguns. Homicides were down 8.5%, Rape down 5%, Aggravated Assault down 7%. Since 1986, the number of states making it legal to carry concealed weapons has grown from 9 to 31.

**Will Clinton** win re-election? Dole is a pitiful old Washington insider, Perot is destroying the Reform Party by his absolute control, and the other Independent Parties stand no chance at all. Women support Clinton handily, proving gender-norming hasn't improved their intelligence levels any. Blacks overwhelmingly support Clinton, proving they will support anyone who doesn't require responsibility of them. Feminists, lesbians, queers, faggots and other assorted freaks of nature all support Clinton-which speaks for itself. What a hell of a coalition.

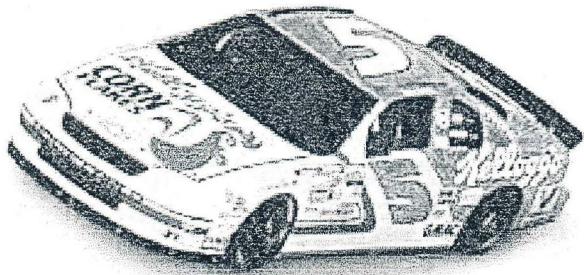

**Wall Street** is constantly quoted as describing lack of good economic news as being good for the market; and a rising economy as bad for the market. This is counterproductive to the American peoples interest and well-being. In fact, this borders on treasonous behavior and self-interest. We recommend, in fact we insist, Wall Street be closed down in the National interest, and for the survival of all working men and women in this nation.

**Bill of Rights Rally** during Labor Day weekend in Washington. Coverage of this event in October's Issue of Colony News.

### Nascar: Winston Cup Series

Terry Labonte, series points leader

1996 is turning into one of the most competitive Nascar racing years on record. Four drivers are within 137 points of winning the coveted championship. As of August 23, it's been Texan Terry Labonte's year so far. But close on his bumper is teammate Jeff Gordon and perennial 7 time champion Dale Earnhart.

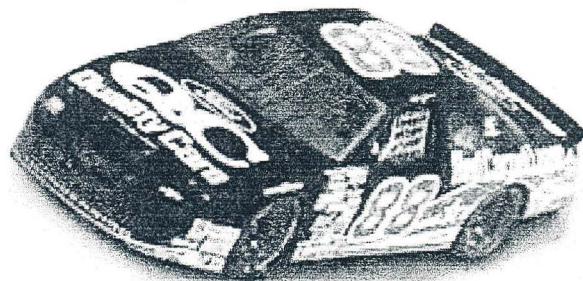

Jeff Gordon, eyeing his second championship

Only 3 points behind second place drivers Gordon and Earnhart, is Dale Jarrett, who appears to be running the fastest car on the circuit. Jarrett is also close to winning the Winston Million.

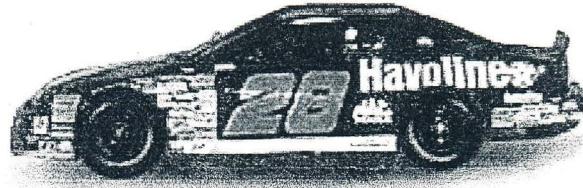

Dale Earnhart, tied for 2<sup>nd</sup> with Gordon

Rounding out the top ten are Mark Martin, Ricky Rudd, Ernie Irvan, Ken Schrader, Sterling Marlin and Rusty Wallace.

Dale Jarrett, fastest car in series

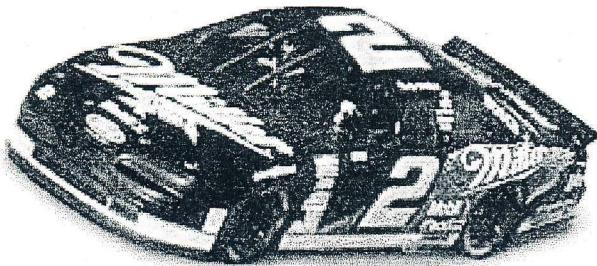

The highlight story of 1996 is the return of Ernie Irvan, almost killed in a devastating accident during the 1994 season.

Ernie Irvan, hottest driver the past month

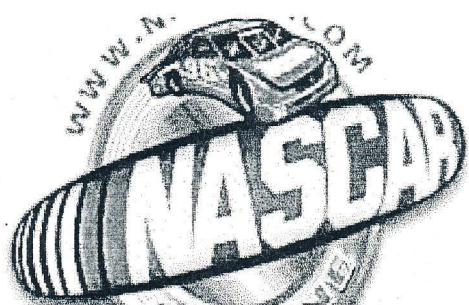

Irvan, driving with a patch over his left eye due to the 1994 mishap, has been the hottest

driver on the track the past month, with the highest average position the past four races.

Rusty Wallace, crashes complicating season

With only 137 points separating the four drivers, anything can happen as the season goes into September. The edge, however, appears to be in Jarrett's favor, as his Ford Thunderbird seems to be able to overpower the Chevrolet Monte Carlo's run by Gordon, Labonte and Earnhart.

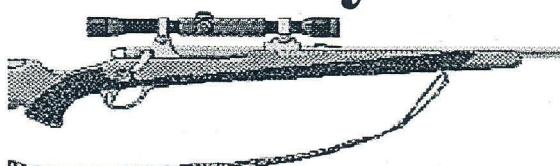

The Nascar Winston Cup auto racing series is rapidly becoming the most fan watched sporting event in the country. Sold-out crowds in excess of 100,000 fans per race are standard.

Unlike Indy car racing, which has become a purely world-racing series with foreign drivers predominate; Nascar has it's roots embedded in the deep South, racing American cars combined with easily identifiable American drivers who actually praise God for their good fortunes.

# *My American Creed*

By: Dean Alfange

I do not choose to be a common man. It is my right to be uncommon. I seek opportunity to develop whatever talents God gave me - not security. I do not wish to be a kept citizen, humbled and dulled by having the state look after me. I want to take the calculated risk; to dream and to build, to fail and succeed. I refuse to barter incentive for a dole. I prefer the challenge of life to the guaranteed existence; the thrill of fulfillment to the stale calm of utopia. I will not trade freedom for welfare nor my dignity for a handout. I will never cower before any earthly master nor bend to any threat. It is my heritage to stand erect, proud and unafraid; to think and act myself, enjoy the benefit of my creations and to face the world boldly and say - "*This, with God's help, I have done.*" All this is what it means to be an American.
